

# SAHIL MULLA

## Software Developer

☎ +91-9152754549 — ✉ [sahilmulla9152@gmail.com](mailto:sahilmulla9152@gmail.com) — [in linkedin.com/in/sahil-mulla1](https://www.linkedin.com/in/sahil-mulla1) — [github.com/sahilmulla16](https://github.com/sahilmulla16)

## Summary

Results-driven Software Developer with experience in AI systems, full-stack development, and workflow automation. Skilled in Python, React, JavaScript, and machine learning with hands-on experience building scalable AI agents, responsive web applications, and automation pipelines. Strong analytical and problem-solving abilities with a passion for developing efficient and user-focused software solutions.

## Skills

**Programming:** Python, Java, JavaScript, SQL

**Frontend Technologies:** React.js, Next.js, HTML5, CSS3

**AI / Machine Learning:** NumPy, Pandas, Matplotlib, Scikit-learn, Seaborn, LangGraph

**Tools & Platforms:** Git, GitHub, Docker, Jupyter Notebook, n8n

**Soft Skills:** Problem Solving, Communication, Analytical Thinking

## Experience

### Freelance Developer

Nov 2024 – Dec 2024

*Apexxport Pvt. Ltd., Mumbai*

- Enhanced UI/UX responsiveness and optimized performance for improved user experience.
- Collaborated with stakeholders to implement scalable and maintainable interface improvements.
- Received a Letter of Recommendation for contribution to front-end optimization initiatives.

### Web Developer Intern

Jul 2022 – Aug 2022

*A to Z IT Solutions, Maharashtra*

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Improved UI performance and reduced page load times through frontend optimization techniques.
- Worked within collaborative development workflows to deliver project requirements efficiently.

## Projects

### General AI Agent | Python, React, LangGraph, ChromaDB

- Developed a multi-agent AI system capable of reasoning, workflow orchestration, and contextual retrieval.
- Implemented Retrieval-Augmented Generation (RAG) pipelines using vector databases for semantic search.
- Integrated automation workflows and local LLM support to improve scalability and reliability.
- Published and presented a research paper at the International Conference on Smart Systems for Sustainable Development (SmartSSD-2026). **[Paper]**

### Smart Lathe AI | Python, Machine Learning

- Designed an AI-driven predictive maintenance solution for machining operations.
- Improved operational monitoring efficiency by reducing dependency on manual supervision.
- Enhanced machining precision and automation through predictive analysis techniques.

### AI-Powered Virtual Assistant | Python, JavaScript, Bootstrap

- Built a voice-enabled virtual assistant capable of executing commands and retrieving real-time information.
- Integrated speech recognition and scheduling automation features for productivity enhancement.
- Implemented real-time command processing and task execution functionalities.

## Education

### B.E. Computer Science (AI & ML)

2023 – 2026

*M.H. Saboo Siddik College of Engineering, Mumbai*

CGPA: 9.10

### Diploma in Information Technology

2020 – 2023

*M.H. Saboo Siddik Polytechnic, Mumbai*

First Class Distinction (84%)
